Subject: Forex margin requirements proposal

Dear Secretary,

Lowering the margin requirements for forex trading to 10:1 will put the retail trader out of business and affect the forex market.

If you believe the margin requirements should be changed it should be to move the lower margin retail forex accts to mini or max-mini accts which general are better for lower margin forex traders.

I appreciate your consideration to consider the above before making your decision.

thx
Chris geoghegan
forex mini trader
