Subject: Regulation of Retail Forex

This message has been modified by removing a potentially harmful program. Only the appearance, not the content, should have been affected. If you are having a problem with this modified version, please contact your local OITS Customer Service Center for assistance.

To whom it may concern:

I am a forex trader in China and I have been using US brokers for several years and very satisfied. Compared with other countries brokers, the aspects of US counterparties appealing me, which I think apply to other countries clients also, are:

- 1, Strong and respectable regulation bodies,
- 2, Sound and sophisticated financial infrastructure,
- 3, US as a country have a tradition for the protection of international investors,
- 4, US based forex firms are generally more financially solid and well-managed.

Regarding your recently regulation proposal, I fully agree to enhance industry oversight, but I don't like put any restrictions on leverage. Leverage is a very important tool for us seeking financial freedom as your American, and lowering leverage dramatically like this will not only hurt our clients feeling but also drive us to other countries (ie. unregulated) brokers despite above advantage. This is not a win-win situation, it's a lose-lose situation that you probably wouldn't expected.

Please reconsider your proposal.

Regards,

Mike Zhang
