commenter\_subject: Retail Forex Leverage

commenter\_frdate: 1/17/10

commenter\_comments: Has everyone at the CFTC totally lost their minds.

Is their any common sence left among you. The  
proposed 10/1 leverage on retail forex taders is  
idiotic. You will stop US Citizens like myself from  
participateing in the markets. You will loss tax  
money generated from us. I am a full time forex  
trader and with this proposed regulation will be  
forced to quit trading. I have talked to hundred of  
traders and some of us will be forced out of the  
business.The others who can afford to will be  
leaving the USA so they can contuine in their  
trading business. Thanks to the CFTC their is  
gonna be one less opportunity to obtain the AmericN  
Dream.
