It is against the Law for Institutions to conduct Arbitrage, Period.

That's why you are institutionalized, not us. You as an Institution have not the right to free trade in arbitrage due to the volume of existential brokerage in Country to Country entity conduct. Only Cheetahs have that right in a free market economy. Have a nice day.

- In responding to a letter from Members of the House Agriculture Committee's Subcommittee on General Farm Commodities and Risk Management, I pointed out that I expect the Commission will act imminently to ensure the following three broad objectives:

- narrow the definition of U.S. person so that our extraterritorial reach is not too broad;
- provide sensible aggregation requirements so that foreign banks won't automatically have to become U.S. swaps dealers just because they do business with foreign affiliates of U.S. banks;
- provide for a phased-in compliance to July 2013 to allow time for other jurisdictions to implement derivative market reforms.

So we should call it the ABC's of Global Market Intelligence

RE-Formation of RE- Thinking Knowledge Management in Monetary Policy

A:

Do you know what English is... RE-English?

It is called listing in definitions of MKMKM...Oxford

Musicology in Actuary Sciences is in the sense of a social growth objective, in global realism, is defined as

DO RE MI FA SO LA TI DA DO... and as the supposition stipulates the world goes round and round.

We are on the cusp of DO and RE it began in 1999 when Turner Construction was sold to Germanie's Hochtief... they play with Americans so much ... it is a pun for HOT CHIEF.

They hate American Indians.

The word Person... is wow... by far the most extensive line of sight in the terms of definitions of Precis Juris in the world. If you would like to make it easy on yourselves... get rid of the Sole Proprietor and make it Entity.

I am attaching some works that I have done in regards to the term in definition of and in the premonition of entity.

B:

Do you have the gall and the balls to speak out of line...

No one according to SEC law is allowed to speak in or out of the United States without the premises of the President of the United States due to the Nature of the word Land, period. Way "Bach" in Histo there were deals made... these deals are called treaties... if you do not like Corporal Punishment then do not even try to think that you have the right to conduct the deals with banks of a entity outside of the US. There are laws we have called D tente', Sedition, and Institutionalization of Entity in Sate of state. The president brokers all deals out of the US period...well unless he decides to a congressman/woman or the Secretary of State ect. That's what the 1% is silly... If you would like to conduct business outside of the US then you have to...have to... be a citizen of the entity to which the conduct of transfer is being adhered to. Other than that you are tied to the US Laws of State.

C:

Define exactly what the RE-Forms(Access/Oracle) are that you and your commission are about to send to juris...

Mathais? Lathin? All the Global Actuaries... need to speak up about this. Do you even know how Spain and Portugal split the World in two? Ask Oxford... In commoner English it is Linguistics...Sinologist... Get the Drift... Words cost money... If you would like to change what you do here in the US, in the Finance markets...start with FINRA and work your way down the Candy Striper Pole...Sweets of London... Swiss Cheese in your suppositions... and don't forget the very very real fact that China controls the Gold Market Guilds... silly kids.

It's called Top Down Econometrics not bottom up US Department of Education teaching.

Oh and last but not least...

The FDA regulates all food distributions through the OCC not the CFTC, if and when you begin to try to control the FX market through the regulatory compliance of money control you then are trying to take control of the only, one and only free market on the planet. And let me tell you something... not one country on the planet will let the extensively rich American Families take the only avenue they have to make a better life for themselves.

So don't even think about it.
