Subject: Regulation

Hi

I'm glad to see that the forex market is being to be regulated however, raising the margin 100:1 to 10:1 will

kill my trading and my way of life. Firms offer the option for traders to trade 10:1 if they choose and I think the choice

should be left with the trader. Make it a choice for all NFA and CFTC regulated Forex firms not a rule.

Please don't kill the market.

Thanks

Nick Marodis
