**Subject:** Regulation of Retail Forex

---

Dear CFTC Secretary,

This is to let you know I opposed your proposal to restrict the leverage in Forex US Accounts to 10:1. I make my living through Forex trading and with this new regulation the amount of money required to make a trade will be outrageous. There are enough problems with our economy right now and a large amount of unemployed people to prevent traders to make a decent living.

Please let people manage their own money and risk. There are many disclaimers in place already to advice traders of the risk in forex currency trading.

Sincerely hope you don't pass this regulation

Regards,

Eduardo Marrero  
Miami Lakes, FL
