*As many of you are aware, the U.S. Commodity Futures Trading Commission (CFTC) announced on January 13, 2010 that it is seeking public comment on proposed regulations concerning retail Forex trading. As part of the proposed regulations, it is stated: "leverage in retail forex customer accounts would be subject to a 10-to-1 limitation," which means 10:1 leverage would be the maximum amount allowed for all Forex traders in the U.S.*

That is quite unfair to those of us who don't have that kind of money, yet are trying to earn money trading. Please don't change the leverage to 10:1. Then only the big boys can play. I thought america was a land of opportunity. It seems more and money it's a land of opportunity only if you have the \$\$\$.
