Subject: Regulation of Retail Forex

To Whom It May Concern:

I hope that you will reassess the proposal to change the current margin for Forex Currency Traders. As responsible traders, the current margin allows me to earn a small amount of money for bills since becoming unemployed in 2007. By using stop losses and not overhedging my account, I can trade responsibly as anyone can. We do not need more government intervention in our personal choices.

I am opposed to changing the margin; please reconsider and let people have choices and make their own decisions.

Thank you,
