Subject: 'Regulation of Retail Forex'

RIN 3038-AC61

I just heard about the public comment seeked by the CFTCand as a Forex trader i would like to ask you NOT to change the leverage limitations to 10:1 but leave it as they are at 100:1.

The limitations have been changed from 200:1 to 100:1 just this past November..... i think that was more than enough.

Thank you for takeing into consideration our opinions as FX traders and market participants

Sincerly

Adrian Mihailovici
