company Individual Forex Trader

If such a rule was implemented it would knock my micro-account out of trading. I'm certant that a broad base of the working-class that trade in their spare time would also be locked out of trading if such a rule was implemented.

If it is possible, could I be sent a brief description of what the CFTC is hoping to accomplish with another change to the margin requirements to trade?
my e-mail is : demon@abysz.net
