Subject: 100:1 to 10:1 for US Accounts???

David,

Why are you people doing this to the US based accounts? You just lowered it from 400:1 to 100:1 for God sake!! Please explain to be the reason behind doing this, other than trying to control our lives! If its supposedly a good reason than why the hell aren't other countries doing this??? This just creates more problems because people will now travel to the UK and other countries to get what they want... thats 400:1. This and your decision to do this is absurd.
