Subject: Regulation of Retail Forex

Hi David,

Why are you changing the leverage from 100:1 to 10:1????????? Thats just CRAZY!. Do you not remember just changing it from 400:1? What you are doing is not right and I urge you to keep the leverage as it is. You are just encouraging forex traders to venture into overseas accounts and make their money elsewhere! Some people depend on FOREX to support their family and daily lives!
