Subject: Regulation of Retail Forex

Dear Mr. Stawick,

I am strongly opposed to RIN j3038-AC61 which would change leverage from 100:1 to 10:1. You would be eliminating most of the small private traders in the market today resulting in an overall drop in the volume of money traded in a day. Please argue on behalf of those of us small day traders who will no longer be able to make a living in Forex.

Your comments would be appreciated. Thank you,

Suzanne Kvammen
