commenter\_subject: Leverage

commenter\_comments: Sirs: In my opinion reducing the leverage rate from  
200:1 to 100:1 in the Forex market is being heavy  
handed. Now you want to go to 10:1? This is  
absolutely overregulating!!!! There are people out  
here trying to make a living in the markets! What  
you are doing is hamstringing us!
