**Subject:** proposed new rule

---

Dear sir or madam,

The proposed new rule **does not** protect investors. It will do the opposite, because an investor will now have to risk 10 times the amount as before to place the same trade.

**Please, please do not pass this proposed new rule!!!!**

If this proposed new rule is passed, it will just, once again, prove that our government is run by incompetents.

Thank you for your attention,
