Subject: RIN 3038-AC61 Opposed to Change
Attach: heaslett.vcf

Greetings,

I oppose the rule change (RIN 3038-AC61) to reduce the leverage in small and micro accounts. The rule will essentially eliminate the small and very small forex trader. My small account is used to help learn in a live trade but not put a significant amount of capital at risk. Please do not change the rule.
