Subject: "Regulation of Retail Forex"

The 10:1 Rule is for MORONS with Megabucks to play the Forex Market.
Like them OLD TIMES before the advent of the Internet.

You buggers are aiming to send this opportunity back in to the STONE AGE,
where apparently while collecting a Government paycheck are happy to exist.

I have spent 10 years of my life trading the spot forex market, perfecting my technique.
I have never been taken by a retail forex broker, I do my research and act prudently.

WHO is CFTC to interfere with FREE ENTERPRISE??

Monitor and police Spot FOREX Dealers for shenanigans... BUT LEAVE the available leverage WELL
ALONE.

This is still AMERICA the land of opportunity, and NOT **AMERIKA after USSR.**
