Subject: 'Regulation of Retail Forex'

To the Secretary of the CFTC: RIN 3038-AC61

My name is Corey Luster and I have been following the FX Market for 1 year now and I am so happy with my results and with the leverage just the way that it is. There is trully no reason to mess with this market and its leverage its fine just the way that it is. With the crash of the stock market high gas prices and all the wars that our country is in the FX Market is the new frontier. Our country has been on the wrong track for at least 80 years now under capitalism with no moral or ethical conscious from some of the presidents and leaders of the US. I love this country and I have served this country in the US. Army secretary I just ask that you leave the world market to the people of the world this market has been around for a really long time and it should be left alone and allow people to continue to make money as they see fit!

Thanks for your time!

Corey Luster
