To whom it may concern,  
I am writing regarding the new regulation of the forex market. I am very happy about it as there needs to be more regulation. I have been burned several times by different brokers under questionable circumstances. The only problem I have is the changing of the leverage. The leverage in forex is the reason why I trade currencies and not stocks. I would be very disappointed if the leverage was dropped. Please don't change the leverage!  
Thank you,
