**Subject:** NEW RULES ON FOREX

---

SECRETARY:

**This letter is to tell you that the new rules you are considering are not approved by me as a US citizen in the good country of the United States. If this bill is passed you are taking the right for us to trade in the FOREX markets. You already made some big changes in the NFTA rules and now you want to take our rights to trade in the FOREX which I protest. What are we in Russia or China that you are going to tell us what to do now???? I thought this was the great United States that we live in and fought for FREEDOM of our great country. It seems that we are turning more to Communism.**

**Yours truly, RONALD DAOUST**
