commenter_subject: Forex Leverage

commenter_frdate: January 22,2010

commenter_comments: I
am an independent trader in the forex. There
is an attempt to change the leverage in the Forex
market from it's current 100:1 down to 10:1.
Recently it was successfully reduced from 200:1
to 100:1. To further change it to be 10:1 will
drastically change my trading. I and other traders
will be forced to go to overseas brokers. Please
, do not move it to 10:1
