David Stawick or Secretary at CFTC,

Regarding: **RIN 3038-AC61**

This would be a disaster to Forex trading if you were to change the margin requirement from 100:1 to 10:1. In fact I think it would be best to bring back at least a 200:1 margin requirement. You are going in the **WRONG** direction. This would be a huge mistake.

Sincerely,
Angela from California
