Subject: Please Do Not Pass

The 10-1 Rule. It would no longer allow me to LOSE MONEY in the Forex. Who will you big guys profit from if all us little traders are pushed out. As you know roughly 90% of all traders LOSE money. If no one can afford to play, how will the 10% make it. This would be a mistake. Oh, I don't trade in it at all, (so it won't hurt me), for this very reason. But really think about this move first! This reminds me of a large city that decided NOT to issue 'Parking Tickets.' They lost SO MUCH REVENUE, that it lasted less than 30 days!! Don't make the same type of costly mistake! Remember: "You can only stick it to so many people, then you inadvertently stick it to yourself."

Can't say I didn't "Tell you so."

R.
