Subject: 10:1 Leverage

I want to express some personal opinions about the new regulations were made. I think there is one point that is not appropriate for the applied and reviewed please point I mean the rules of the 10:1 leverage This rule applies if I will move my funds directly from FXCM to off-shore brokers that do not apply this rule 10:1 leverage because I had to use a lot of money to open a 1 lot transactions. and worse again 10:1 vulnerable to margin call. means HIGH RISK, LOW RETURN!! please save our traders, do not harm us with a bad rule.

best regard
Hidayat Heo
retail traders from Indonesia.

nb: sorry my bad English.
