Subject: Industry Filings: Comments on Industry Submissions

I am writing to challenge proposed law of decreasing leverage from 100 to 10. This would certainly make it a lot harder for the little trader to be able to participate in the Forex Markets. I sincerely hope that this does not pass and that the CFTC will give this considerable thought. I really believe that there would be a lot less traders and much smaller amounts of trades.

Please do not pass this regulation.

Sincerely,
Sandi Rosenau
