**To:** secretary <secretary@CFTC.gov>  
**Subject:** New regulation

---

Sir,

I live in France and I learned recently that the CFTC proposed a new regulation : lowering the leverage from 100:1 to 10:1.

That means that all the people who have a few money cannot do what they want (for exemple do some trading with a few dollars).

This **measure** is against all the rights of human being, and will only permit all the rich people to continue to do trading.

In fact nothing will change with this measure.

Best regards.

Gerald Frank
