Dear Sir or Madam,

With the new proposed legist ration it is a good to bring the registration into account and should of been done before, but what I can't understand is the change in reducing the maximum leverage for US Retail Forex to 10:1as this for the retailer will just not be viable, at the moment I have three separate accounts in the USA but if this comes into force I will have to close them down and open new accounts to Europe and Australia, I just can't understand the logic in this part of the legist ration, and it's my personal belief that this should be reviewed before any implantation.

Regards

Graham Blyth
