Please...enough with the regulations already.

A downward change in the leverage rule will damage or destroy my ability to trade Forex.

Many (if not most) of us got into Forex trading because it gave us the ability to leverage our investment capital. This proposed change, if enacted, will once again hurt the regular guy.

Please try to remember that capitalism is what made this the greatest country on earth. And capitalism is all about risk/risk management and corresponding rewards. The move in this country to regulate everything is killing this country. Let the markets decide the winners and losers...not the regulators.

G. Marten
