Subject: Regulation of Retail Forex

Dear Secretary and CFTC,

One of the reasons I opened a Forex account, despite being very low on savings, I am able to beat the only other investment instruments I can afford, savings accounts and CDs....

I understand that the proposed change of 100:1 to 10:1 is designed to protect people like me, and perhaps the financial industry too. The proposal will take away the only opportunity I have to invest in a meaningful way in my future.

I am for all other regulation and I think you guys are "the bomb" and I love you.

I believe that the only people that will benefit from such a move is people who need no protection on the market.

I am begging you to reconsider this radical Forex Leverage change, as it will destroy my only working investment, and the liquidity of the markets.

Wesley Miller
Kailua-Kona

P.S. Please please please please please please please please please please don't do not regulate the leverage rates from 100:1 to the radical low level of 10:1!
