I am a individual who is in full support of elections markets coming to the Kalshi exchange for me to hedge on.

The risks that global warming add to the American economy and to my retirement portfolio are substantial. Any market that allow hedging of that risk should be viewed as totally favorable by any US regulator

Kalshi markets would be a big help in understanding and managing the risks of a retirement portfolio

I am involved professionally in a number of forecasting projects. Any and all risk mitigation would help
