**Comment Text:**

I am a individual who is in full support of elections markets coming to the Kalshi exchange for me to hedge on. Political control affects me in many ways. Specifically Political control allows for more productive conversation with family and friends regarding difficult subjects. By executing individual control over races, via regulated markets, we're able to literally put our money where our mouth is. This leads to an unbiased end result where we can more effectively break down complex social events.. I would use Kalshi's contracts to hedge my risks by Opening dialog would reduce the risk of harm in conversation and discourse. It will increase political science study and, frankly, it's a fun hobby. Thank you for listening and I hope you make the correct decision.
