**Subject:** 4x leverage

---

Once again the actions of a few...gets the masses punished...reducing leverage further does little to the really large 4x traders and makes it nearly impossible for the small trader to do business. I'm thinking that most bankers and investors will simply move offshore cutting the tax base even more and giving the largest banker another reason to raise taxes on the very people they say they are trying to help..

Thanks for your time

Randy Overfield
