**Subject:** ABS Investments LLC., - CRTC Regulation Proposal

---

In Reference to :RIN 3038-AC61

To whom it may concern;

On the matter of assessing minimums on ratios for any trading transactions but more importantly the proposed 'CFTC Regulations' as it affects my personal investing strategies are absolutely out of line. As an accredited investor I certainly do not need any governmental agency or limits and guidelines to determine what percentage of my money that I can or cannot invest

I will contact all of my associates in the business and others to be sure to contact your offices regularly in hopes that you understand our concern of government oversight as to how much money we can create in our own entities and ventures.

I of course will be contacting my congressional constituents as well.

We only risk our OWN monies not the taxpayers.

Expect a call from me with the next day or so as well.

Regards,
