Dear Sir,

I have been informed that drastic changes are being proposed for the FOREX. I have just started inot this market with a very small amount of cash that I borrowed. I am retired and on social security. This is my only income to add to me s/s so that I can still maintain my standard of living. My house is presently in forclosure and htis will make the difference to whether I continue living here or moving to a shack.

PLEASE DON'T MAKE ANY CHANGES TO THIS FOREX.

THANK YOU
