Subject: Regulation of Retail Forex

I'm voicing my opinion against the proposed regulation of the Forex market. I make 30k a year and just purchased my first home.

I've been studying and tweaking my Forex strategies for just over a year now. I have very little to work with, and what you are proposing will effect what I do tremendously. I DO NOT need any one looking out for me, or looking over my shoulder.

Thank you,

Shawn Reahl
