commenter_subject: Regulation of Retail Forex

commenter_comments: As a retail trader I do not support the CFTC
Proposal for changing the margin requirements from
1% to 10%. Only recently have the doors opened for
retail investors to trade in this market; these
doors are effectively closed through the proposed
rules, once again making the FX market accessible
only to financial institutions. I urge you not to
impose these rules on retail traders.

Thank you,
Brian Martin
