Attention

I do not support this regulation, and I'm organizing traders to stand against this regulation. Also to vote politicians out of office this Nov. who do support it! I do not need the govt telling me how much risk or leverage I can assume.

This regulation will accomplish one thing and that is moving traders acct. off shore. This is not going to work, all the traders I have talked with all oppose this regulation.

Again I do not support this regulation.

Chris Knoll
