I am a beginner Forex trader. Why do you folks want to take away an opportunity for me to be a successful citizen trading currency pairs. Do I not have rights to a fair market? ( World Wide Trade) Are you folks GOD and determine what's best or bad for me? Get off this, This is why you Leader's are being voted out. I think you will get your way but be assured I will find out what Institution you are protecting and will boycott them and tell all my friends to do so as well.
