---

NO, No, No !!!

I DO NOT agree with changing the leverage to 10-1.  
I have just started trading forex and doing OK, I am doing my best to help my family with extra income. It is so very hard to find a good paying job but investing in forex I don't have to work 10 hours a day for minimum wage, just to make ends meet.  
Please think of the small investors out here !
