Subject: regulation of retail forex

Sirs,

Im a retail forex, and a would like to say that your proposal to reduce the forex leverage to 10:1 simply sound's me out of all reason.

I think that nature of this market requires more bigger leverages. And a reduction simply could send all forex capitals out of USA. Simple. Offshore.

Simply i dont know what is happen in washington, but this proposal reflects and authentic comunism try to the "well known" usa practices to "let it be" to the "market".

Thanks
