Recently, the U.S. Commodity Futures Trading Commission (CFTC) announced that it is seeking public comment on proposed regulations concerning Forex trading. In part, the proposed regulations states:

*"to collect security deposits in a minimum amount in order to prudentially limit the leverage available to their retail customers on such transactions at 10 to 1"*

This means that leverage limits will be reduced from current limits of 100:1 to 10:1 for all Forex trading in the U.S. Below is an example of how the proposed leverage reduction would affect your Forex trading account.

I oppose this regulation. The transaction of my account is my business. You should not intervene my freedom. In my view, You are discriminating against retail customers.
