commenter\_subject: I Do not Support The New Regulation

commenter\_comments: If you will pass this new regulation,you are taking  
the oppurtunity from an average investor to  
participate in the open market. You are limiting  
this oppurtunity to the big corporations and  
banks. This is a free market and everyboby should be  
given an equal oppurtunity to participate. You are  
voilating the basic principles of democracy.
