---

Forex Regulation of 10-1 leverage is insane. It will destroy forex business for average investors, seriously damage our economy, money will go out of the country, cause even more unemployment, destroy our country which is in a very difficult situation.

100-1 is the MINIMUM leverage we should have. European countries have 500-1. Learn from them.

If you change the leverage to 10-1, you will be participating[ating in further destruction of our economy and our country.

DON'T DO IT.
