Subject: New CFTC Proposed Rule

Hello "Commodity Futures Trading Commission" (CFTC)

I am a retired US citizen with a family who trades Forex for a living and for life as my only income is my social security check!

Your proposal to soon change Margin from 100:1 to 10:1 would require all of us to have 10 TIMES as much money in our accounts to make the same money we are making now! This would cause an extreme HARDSHIP on all of us and is NOT necessary in any way. IF I WAS A CAR DEALER WITH 100 CARS ON MY LOT TO SELL AND YOU PASSED A RULE THAT I COULD ONLY HAVE 10 CARS, I WOULD GO OUT OF BUSINESS. You will be receiving many more emails on this from all of us who are trading for a living.

Please DO NOT pass or enact this change, email confirm that you rec'd this & put me on your emailing list.

Thank you....Thomas Feindel tomfeindel@att.net 508-877-5198

PS...I attend FX meetings every Thursday night at MIT in Boston. If you like to hear our feelings on this BEFORE your 60 day deadline and BEFORE you act on this matter that is so important to all of us earning a living trading FX, please contact me for the location and time.
