Subject: REgulation of the Retail Forex market

Please do not change the leverage in the 4x market. I have been practicing very much to successfully trade the fx market so that I can make a difference in my life just as many of my friends have.

I am also afraid that if you implement a leverage change, an indirect result will be not supportive to our economy overall, and we need to do whatever we can as individuals or collectively to try to boost it up.

Thank you and please give this email serious consideration,

E. Stanec
