Subject: Changes in FOREX Leverage

Dear Madam/Sir:

As a FOREX spot market trader, the proposed change in leverage from 100/1 to 10/1 will either force me not to trade in this market, or to move my trading account offshore.. Either is not a desired outcome, since my current trading has never had any deleterious effect on the market in general or in my accounts. Current limitations imposed by my broker provide protections that keep me from overextending positions. A change in the leverage ratios is not required and definitely not wanted.

Please keep the current rules.

Thank you,

W. A. McConnell
