Subject: Regulation of Retail Forex

With regard to "Leverage in retail forex customer accounts would be subject to a 10-to-1 limitation" I just want to wish you good luck in implementing it. The forex market has been hurt by incredible leverage trades that destroyed the little capital many retail speculators had. It's still incredible to me that a variety of unprofessional forex "traders" are allowed to entice retail participants with impossible promises, such as 20-30% per month, with basically no losses.

Once again, best of luck in helping retail participants to understand the reality of the forex market - and hopefully trade it the correct way. I am doing my part in trying to educate them.

Best regards,
Cornelius Luca
