Subject: Regulation of Retail Forex

Hi,

I'm totally against the new leverage proposal 10:1.

First on november 400:1 to 100:1 ok

But now 10:1 it will be almost impossible if not totally for a new trader to start trading successfully.

The first change on november drag me back, now if this new leverage proceeds, me and a lot of people will be out of business for ever.

Thanks for your attention,

Alan Joseph Garrido
