Subject: Regulation of Retail Forex

Dear Sir:

I have a year and a half in Forex with a little capital (\$ 2.000 USD). I started to make a profit (thanks to the leverage of 200:1 and now 100:1). I want to dedicate full time to Forex, (I enjoy very much), but with the new proposal as leverage of 10:1 could not do and would have to move my account to another country. I ask sincerely that do not put this law, the most affected traders are smallest like myself.

Sincerely
