Subject: Regulation of Retail Forex

Please do not change the Forex rules as proposed in the new regulation (identification number **RIN 3038-AC61**). I currently trade Forex and make a modest income to supplement my military pension. I will not be able to do this if I cannot get the current leverage for my trades. I am not a rich man but would like to continue in this endeavor. I will be writing my congressman to inform him of my modest request as well.
Thank you.
